

SMALL ROUND ILLUMINATED PUSHBUTTON

Photos and illustrations not to size.
Colors depicted are not exact.

- Pushbutton can flash to attract visitors and/or illuminate to indicate selections made.
- Can be used non-illuminated
- Compact size, great for smaller/tighter exhibit areas. Overall diameter of 1.22" allows for closer spacing of buttons.
- Fits metal or wood panels up to ~.75" thick
- Microswitch reliability tested to 10 million cycles
- Low-power, low-temp LED cluster lamp rated for long life of 100,000 hours
- Standard lens: white/clear
- Special order lens: red, amber, yellow, green, blue
- Assembled, wired and shipped ready to install when ordered as part of interactive projects
- Square, rectangular and elliptical shapes and larger sizes also available
- Pushbutton wrench available
